

Mucolyxir™

A DNA-based nutritional supplement.

- ▶ **A unique, microdose DNA-based nutritional supplement developed to support respiratory health.***
- ▶ **Based on pre-clinical investigations and clinical trials, Mucolyxir™ appears to be supportive in the regulation of mucus.***
- ▶ **The small amount of DNA in Mucolyxir™ may support healthy mucus levels via a regulatory mechanism.***

"Microdose DNA is different than other DNA-based therapies. This approach does not effect gene transfer; it relies on the physical molecule itself to place into motion a series of events at the cellular level. This agent can be of considerable help to many people."

Albert Dahlberg, M.D., Ph.D.
Professor, Brown University Providence, RI
