Conner Youngblood: charango

HOUSTON GOLDEN: vocals, acoustic guitar

I have a lot of love to give to all of the people who made this CD possible: Dad - for all of your generosity and for helping me pursue my passion. Mom - for always listening. Audrey - for inspiration and love. To my high school band "Purple Traffic" - our success encouraged me to continue making music in college. To my brother - for pressuring me to improve and for always rocking out. A special thanks goes out to Matt Wilder for taking me under his wing as a sound production student and turning me into a real recording artist. Elise - for your unmeasurably meaningful guidance and patience! This music has traveled from the Bass Propulsion Laboratories in Dallas, TX, to Wilderside studio in Nashville, TN, where it grew into a professionally polished CD. The first five songs on this CD were written during my years in Dallas, and the last two were written and recorded **live** in Nashville with my new band **The Neon Eon**. This is my first CD, and I promise all of my listeners that it will be followed by many more!
